To date 20 odd boats have been built with a capital subsidy of around Eur 2250 per boat. For my capital contribution I received a half share in the company. My partner subsidizes the operating costs. The company has made losses every year. But it has succeeded in rejuvenating our small fleet and given the youth an opportunity to sail an Olympic boat. The last time Finns had been built in the country was in the early 1990's.
