

2025 Testing and Education Plan

Testing

As we exit an Olympic Games year, the focus will shift to a new roster of RTP and TP athletes in accordance with updated rankings and will be in keeping with World Sailing's Risk analysis.

Proposed testing will be:

- a) Test all Registered Testing Pool Out of Competition between March to May 2025.
- b) Test all Registered Testing Pool Out of Competition at Valencia Test Event July 2025 (ILCA, iQFOiL and Kite).
- c) Test all Registered Testing Pool Out of Competition between September to November 2025.
- d) Target/Competition Winners in at Valencia Test Event July 2025.
- e) Test all Testing Pool out of competition.
- f) Target testing as intelligence requires.

Education

World Sailing will use staff within our organisation as educators, Integrity Manager and Director of Legal and Governance and will work with and develop partnerships and contacts at various NADOs.

All RTP and TP athletes will be required to complete an online education course directly on the WADA e-learning platform (ADEL).

As there is no Major Games or Major Championship in 2025, World Sailing will focus its attention on youth sailors and para sailors in 2025.

The Youth World Championships will take place in Portugal in December 2025. A compulsory anti-doping education session will take place at this event. We will also have an educational outreach booth.

The Inclusion World Championships is scheduled to take place in 2025, date and location TBD. This is a multi class event that we will target to deliver an anti doping session to para sailors.

Para Classes

Inclusion World Championship for Sailing – Venue TBD – 2025 Approximately 150-170 persons	Introduction to Anti-Doping	As per WADA Curriculum - Snapshot of Anti Doping – Focus on Principle of Strict Liability, Consequences of Doping and building capacity to make values-based decisions and behave ethically.
